inspirations for a vintage bathroom

Giving the bathroom an identity linking it to another historical period is possible through original details, even in recently built settings.

Bordeaux&Beige

Your style

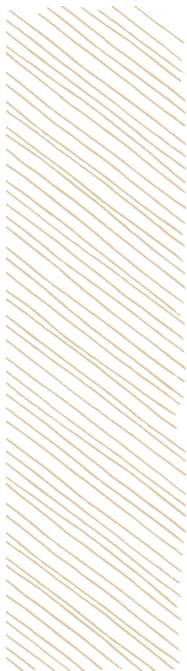

Each individual detail can take an environment back in time, lending it a touch of nostalgia for times past, a magic that also extends to the bathroom. Definitively freed from the nature of a functional space, a vintage bathroom contributes to the global layout of a home.

Bedroom Area Wall Tiling

The bedroom area becomes rich in style and originality. These characteristics won't be enhanced only by the furnishings that make them up, but by the wide range of 4"x8"-size tiles, designed precisely to furnish this domestic setting and make it unique.

Brown&Beige

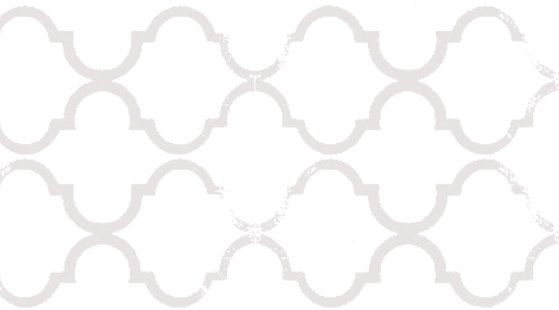

Contemporary classics

The richness in the colour of each single tile, finished with the geometric decorations, reinterpret the Terracottas of times past for the modern day.

Red

Vitality

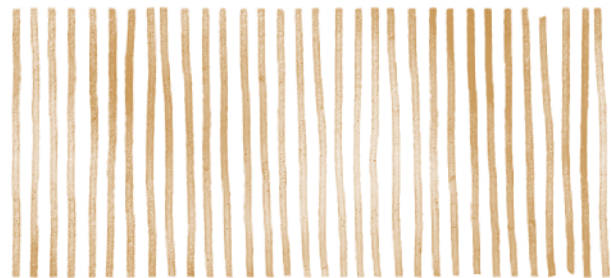

Red: the colour of passion, strength and safety. Those who love it are purposeful and optimistic; it imbues kitchens with cheer and life.

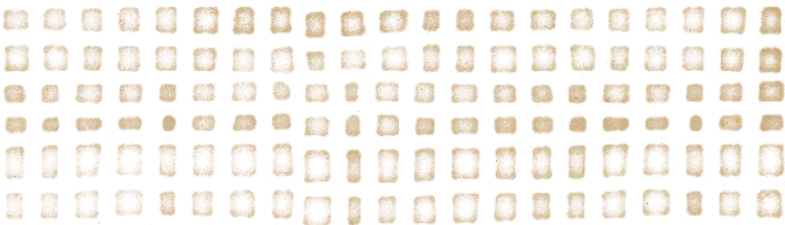

Amber

An active hue

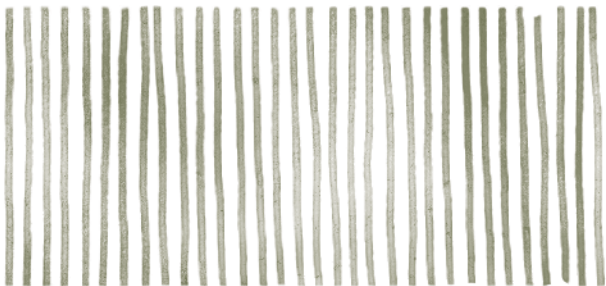

Amber, a colour that inspires dynamism and energy. Many-shaded surfaces with geometric decorations make for a natural, welcoming and life-giving atmosphere.

Amber

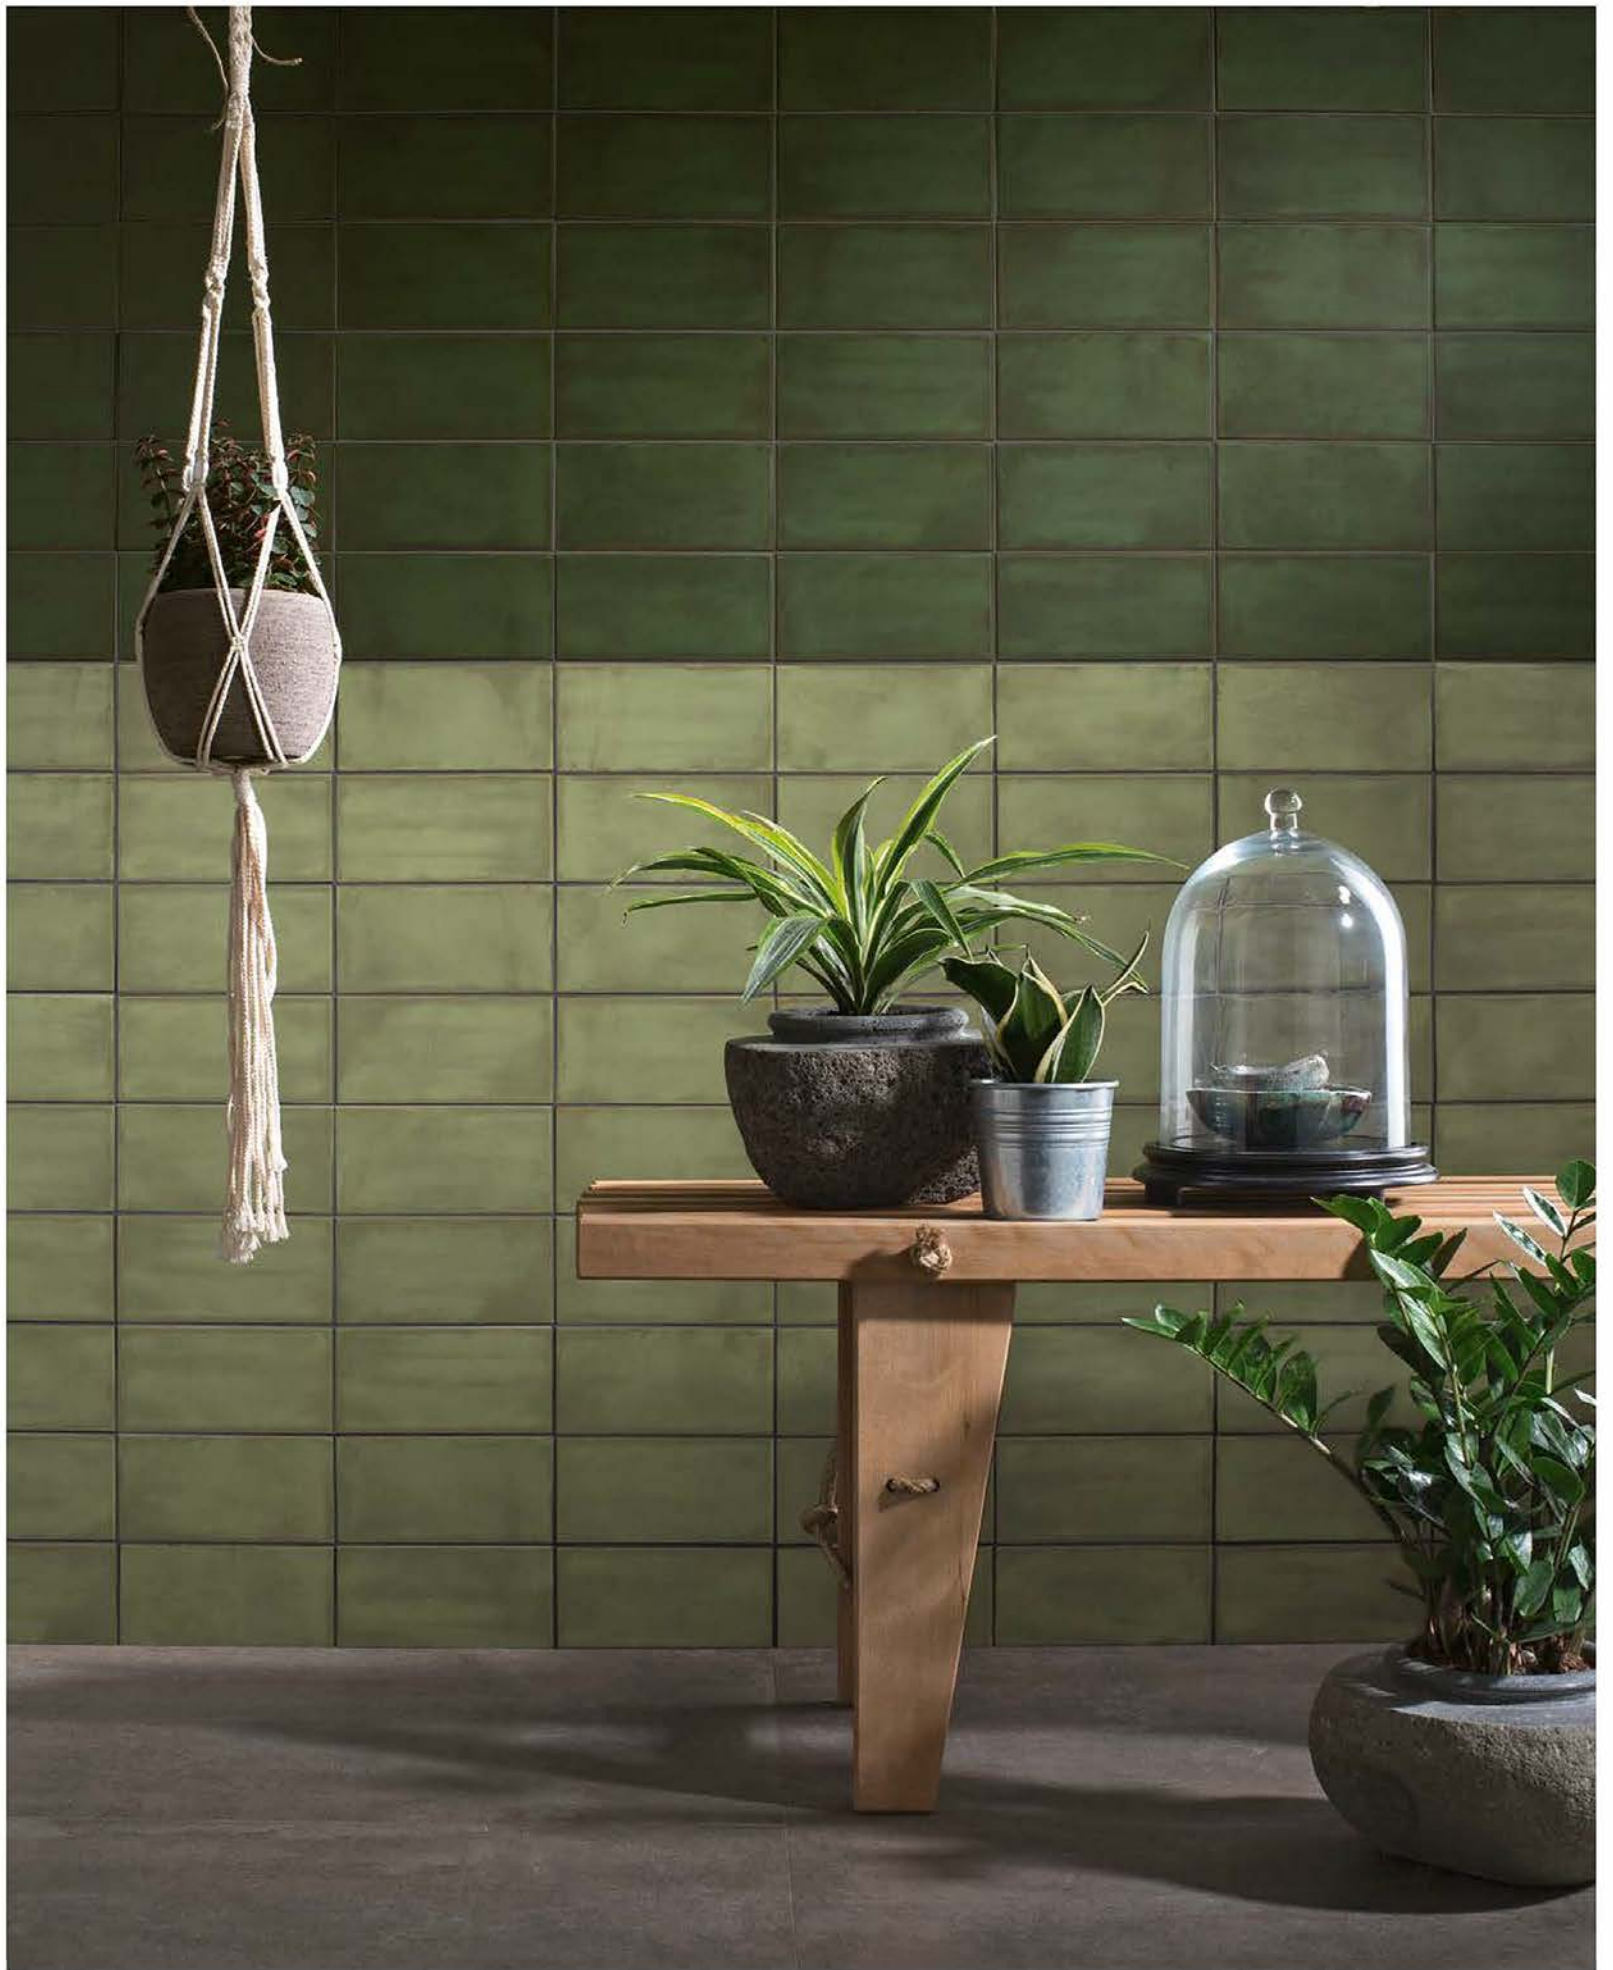

Total harmony

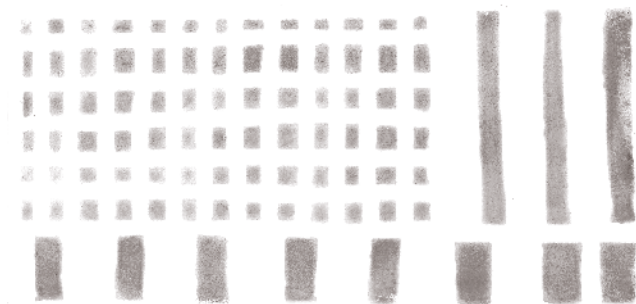

It's the colour of nature that fills the environment with personality, ideal for many uses. The silky soft surfaces lend the wall movement, creating a total balance made up of harmony and love.

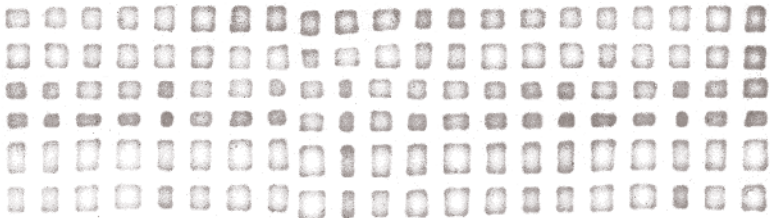

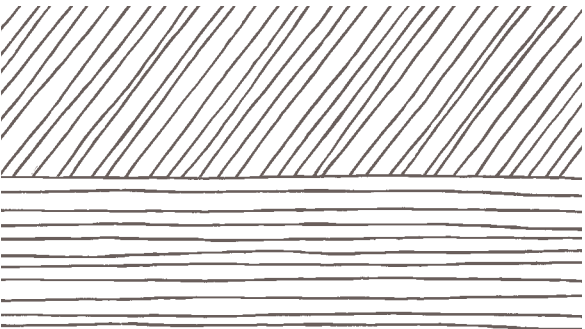

Graphite

The allure of Black

A world of contemporary sensations tells the story of the material that time has shaped through an aesthetic encounter of decoration, design and materials, adapting perfectly to the various requirements of the project.
