*** 2" Square is mounted on a 301 x 301 sheet

** 2" Hex is mounted on a 272 x 326 sheet

*** 3/4" Penny Round is mounted on a 292 x 324 sheet

† 2" tile measures 47.5mm from one straight edge to the opposing parallel edge

Product Performance

Breaking Strength	>350 lbf	ASTM C648
Chemical Resistance	Gloss-Resistant	ASTM C650
Water Absorption	≤0.20%	ASTM C373
Scratch Hardness	7	Mohs Scale

Wet Dynamic Coefficient of Friction Range

Gloss	<0.42	AcuTest sm
Matte	<0.42	AcuTest sm

Shade & Texture Index

Multiplier has a shade variation of V1.

This porcelain tile product is produced with a V1 variation. Differences among pieces from the same production run are minimal. Inspect the product upon delivery and for best results, blend tile from several cartons during installation.

Sizes

shown in MTP02 Matte

2" Square Mosaic

3/4" Penny Round Mosaic

2" Hex Mosaic

Recommended Use

Multiplier tile is recommended for Interior Floors Dry, Interior Walls Dry, Interior Walls Wet, Exterior Walls, Exterior Covered Walls, Pool/Fountain Lining, Waterline Pool/Fountain, Countertops in residential and commercial applications.

* The tile applications featured in this publication are for illustration purposes only and are not intended as a representation or warranty of the suitability of Crossville Tile for any particular application. Specifically, tile selection for wet applications (such as shower or bathroom floors) requires careful consideration of the unique nature of the design and installation. For instance, the industry standard for tile used on level interior surfaces is a dynamic coefficient of friction (DCOF) value of 0.42 or greater; however, the use of small (2" or less) mosaics with lower DCOF values may nonetheless be acceptable for projects with an increased number of grout joints, along with the presence of other surface structures that provide both traction and a means for water to drain and dissipate from the area. It is the sole responsibility of each end user to consult with a design professional to determine and select the most suitable flooring for a particular project.

Information listed here is subject to change. Please refer to CrossvilleInc.com for the latest, most accurate information.

Care and Maintenance

Regular cleaning is the best way to keep Multiplier tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville® products is available at CrossvilleInc.com.

Our Warranty

Crossville Inc. guarantees that its products will meet or exceed the performance specifications outlined in ANSI A137.1- 2012 and in the performance data section of the Crossville, Inc. general product catalog. For complete details check our website at CrossvilleInc.com.
