

GARDEN STATE TILE

Together We Can Design For Life

ANTHEM

Anthem is the new, eclectic collection by **Garden State Tile**: a collection of large slabs and bricks with all the iridescent daring of metal. The iridescence of mill scale gives the surface a tactile appeal, shaping the light to convey the ever-changing colour effect of the metal sheet. The metallic effect, in four colours, generates interplays of light and exquisite reflected glints, ideal for defining modern interiors and for avant-garde architectural projects.

Metal sheds the chilly image that once restricted it to the industrial mood to enter the eclectic world of living-spaces, designing their character with the aid of iridescent streaks, opalescent gleams and sophisticated colours, from black to slate grey, steel and white. The collection's eclecticism reaches its peak with Brick, the 6x24 size tile inspired by the Raku technique, designed for use in high-impact combinations, and amplifying the collection's metallic characteristics and iridescent gleams. The Brick is available in five different colours: White, Grey, Blue, Green and Black - which match the shades of the large slabs.
