

GARDEN STATE TILE

Together We Can Design For Life

# REVOLUTION

# Revolution

In response to the urgency of the climate crisis, Revolution presents a necessary revolution within the industry. Revolution is GST's first entirely carbon neutral product.

It is a beautiful concrete design paired with six bold hues that replicate the artistic layering of venetian plaster. This collection is available in various sizes, along with coordinating trim pieces that offers you conscious versatility.

It's time to take responsibility with the sustainable beauty of Revolution.

• Due to the inherent nature of fired porcelain tile, it is important to note that the coefficient of friction may vary within and between product runs.

Revolution / MADE IN THE USA.

# Green Memberships & Accreditations

	DESCRIPTION
	Defines post-consumer content of as much as 3% recycled glass which reduces landfill impact.
	Defines pre-consumer content of as much as 45% recycled material which reduces our carbon footprint.
	Florim USA sources >95% raw material within a 500 mile radius, which results in a smaller carbon footprint.
	Tile Council of North America and the American National Standards Institute's standard for sustainability and environmental impact.
	A declaration that Florim USA values the environment and works daily to minimize our adverse impact upon it.
	The Health Product Declaration Collaborative transparency declaration for all of Florim USA's naturally occurring materials.
	Certification of plant and product specific Environmental Product Declaration (EPD) which tracks environmental impacts from the production of porcelain tile.
	Underwriter's Laboratories certification of low emitting materials. Florim USA is Green Guard Gold certified.
	Bureau Veritas Standards Program verifies and certifies both pre- and post-consumer recycled content.
	Florim USA actively participates in the Tile Council of North America which allows us to be on the forefront of advances in the tile industry and its standards.
	USGBC is committed to suit a more sustainable life. Florim USA supports this mission by manufacturing products which aid architects in achieving USGBC certification.
	Florim USA's sustainability and social practices support the mission of The International Living Future Institute which strives to create a socially just, culturally rich, and ecologically restorative community.
	The Tennessee Recycling Coalition is dedicated to promoting recycling and sustainable material management practices, and awarded Florim USA the Tennessee Recycler of the Year award for 2020.

## CLEANING & MAINTENANCE

Porcelain tiles are low-maintenance, moisture-resistant, scratch-resistant, and stain-resistant. Completely inhospitable to germs and bacteria, porcelain tile is also among the easiest flooring material to clean and maintain.

### Routine Care Instructions:

1. Sweep or vacuum loose dust and debris from the floor.
2. Mop the floor with a mild cleaning solution (wax, oil-based, and abrasive cleaners are not recommended).
3. Rinse thoroughly with clean, clear water.
4. (Optional) Dry the floor using a clean cloth to increase shine and prevent water spots.

Note: For desired results, it is particularly important to combine the effect of the cleaning solution with a vigorous mechanical cleaning action.

## USAGE AND FEATURES

## PROGRESS THAT INVESTS IN THE ENTIRE SOCIETY

As an active member of the U.S Green Building Council, Garden State Tile spreads awareness to the community and encourages the use of building solutions through environmentally friendly practices. Our products positively contribute to the requirements for obtaining the LEED (Leadership in Energy and Environmental Design) and WELL (IWBI) certifications.

## A COMMITMENT TO ENVIRONMENTAL SUSTAINABILITY AND RESPONSIBILITY

We are committed to conscious development that minimizes the negative impact of manufacturing production on the environment. Our general approach to sustainability intersects with our business strategy to embrace three areas of responsibility: economic, social, and environmental. Some ways we prove this are:

- Products containing as much as 45% recycled content.
- Post-consumer recycled content levels as much as 3%.
- Zero industrial wastewater discharge.
- A 99% internal process recycling rate.
- Local sourcing of >95% raw materials (within 500-mile radius of factory) resulting in low transportation related carbon emissions.

Garden State Tile is taking these and other steps, as well as actively investing to reduce carbon emissions to ensure that we reach full carbon neutrality by 2030.
