Porcelain Stone®

Civilization

Porcelain Stone[®]

From the depths of the ocean, volcanic activity rose to the surface, creating islands of basalt stone where some of the world's earliest people formed great cities and governments. These early empires give rise to Civilization, a basalt-inspired line of porcelain tile from Crossville.

The smooth, fine-grained stone naturally varies in color from light to dark, and Civilization follows suit with six natural incarnations of basalt featuring unique crystalline visuals and subtle movement found in these unique rock formations.

As always, Crossville's porcelain is manufactured in the USA to the highest standards. As grand as the early republics, Civilization features an impressive 24x48 tile in both unpolished and semi-polished finishes, along with a 24x24 and 12x24. Civilization is offered in a unique polygon mosaic, a 2x2 mosaic, and a standard bullnose and cove base.

Seek inspiration from the past for your newest projects in Civilization, made in the USA by Crossville.

- Rectified field tiles
- Unique crystalline visuals
- Floor and wall mosaics available
- Recommended grout joint: 3mm
- Entirely American-made

Shade & Texture Index

Civilization has a shade variation of V3.

V1	V2	V3	V4	V1 Uniform appearance
				V2 Slight Variation
				V3 Moderate Variation
				V4 Substantial Variation

This porcelain tile product is produced with a V3 variation. While the colors and/or textures present on a single piece of tile will be indicative of the colors and/or textures to be expected on the other tiles, the amount of colors and/or texture on each piece may vary significantly. It is recommended that the range be viewed before selection.

Recommended Use

Civilization UPS is recommended for interior floors, interior walls, countertops, exterior walls, pool waterlines and full linings[†] in both residential and commercial applications. Civilization is not recommended for exterior horizontal surfaces or exterior paving. **The semi-polished (SPO) field tile is not recommended for wet areas where standing water may occur.** See CrossvilleInc.com for detailed installation instructions.

[†] Excludes mesh mounted mosaics.

Wet area use for Civilization Mosaics

Crossville® produces the Civilization 2 x 2 and Polygon mosaics with the Cross-Sheen (UPS) finish. The ANSI A326.3 wet Dynamic COF of Civilization is ≥ 0.42 . Their small sizes ensure frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning.

This information is provided so that customers may make a realistic and informed decision when comparing Civilization to other tile products in wet area environments, such as residential/commercial bathrooms, showers, and interior pool decks.

Care and Maintenance

Regular cleaning is the best way to keep Civilization tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville® products is available at CrossvilleInc.com.

Our Warranty

Crossville Inc. guarantees that its products will meet or exceed the performance specifications outlined in ANSI A137.1- 2022 and in the performance data section of the Crossville, Inc. general product catalog. For complete details check our website at CrossvilleInc.com.
