Care and Maintenance

Regular cleaning is the best way to keep Rural Retreat tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville products is available at CrossvilleInc.com.

Wet area use for Mosaics

Crossville® produces the Rural Retreat 2x4 stacked mosaic and 1x6 stacked Mosaics with the Cross-Sheen (UPS) finish. The ANSI A326.3 wet Dynamic COF of Rural Retreat is ≥0.50. Their small sizes ensure frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning.

This information is provided so that customers may make a realistic and informed decision when comparing Rural Retreat to other tile products in wet area environment, such as residential/commercial bathrooms, showers, and interior pool decks.
