## SEDARA

A sensory journey between land and sea

Four warm shades bring to life a texture rich in detail: tiny mineral fragments and minuscule shell remnants discreetly emerge from the surface, evoking the authentic beauty of natural stone and the secret charm of the ocean floor. Two rectified formats—24"x48" and 12"x24"—and a decorative element with a refined relief structure allow for coordinated floor and wall applications.

# DESIGNED THROUGH NATURE

Innovation and design shape fine porcelain stoneware surfaces inspired by nature, covering every space with balance and authentic sophistication.
