PLEASE NOTE
The colour variants **Moss** and **Copper** are produced with a craquelé glaze, characterised by tiny surface cracks that contribute to their unique appearance. However, this type of glaze is particularly delicate and may react negatively to acid products or aggressive cleaning agents. It is recommended to use neutral detergents for cleaning, both immediately after laying and for daily maintenance. It is important to avoid the use of anti-limescale products, as they may dull the surface and impair its appearance.

NOTA BENE
Le varianti colore **Moss** e **Copper** sono realizzate con uno smalto craquelé, caratterizzato da piccole crepe superficiali che contribuiscono al loro aspetto unico. Tuttavia, questo tipo di smalto è particolarmente delicato e può reagire negativamente a prodotti acidi o detergenti aggressivi. Per la pulizia, sia subito dopo la posa che per la manutenzione quotidiana, è consigliato utilizzare detergenti neutri. È importante evitare l'uso di prodotti anticalcare, poiché potrebbero opacizzare la superficie e comprometterne l'aspetto.
