ZEL

The logo for Zel, featuring the word "Zel" in a blue, sans-serif font, followed by a trademark symbol (TM) in a smaller, grey font.A background image showing a close-up of a Zellige tile pattern. The tiles are in various shades of green and teal, separated by thin, light-colored grout lines. The pattern is a complex, interlocking geometric design.

Handmade in Fes, Zel represents the authentic heritage of Zellige tilemaking that has flourished in Morocco for centuries. The unique surface, edge and color variation of Zellige has made it much sought after by designers and homeowners seeking the most authentic expression of handmade tile.

Today, the production of Zellige remains unchanged; each tile is made completely by hand, from forming and pressing the clay body to glazing, cutting and packing. Our Zel collection offers classic Zellige shapes as well as new offerings, all sure to bring unmatched character to any space.

Available Shapes

Zellige Classic
4" x 4" x 1/2"

Zellige Nouveau
4" x 4" x 1/2"

Zellige Nouveau Hexagon
4" x 4 1/2" x 1/2"

Bejmat
2" x 5 3/4" x 1/2"

Zellige Classic
2" x 2" x 1/2" Mosaic

Habiba Mosaic
11" x 11" x 1/2" Sheet

Available Trim

Side Profile

Petite Bullnose
1" x 4" x 1/2"

All sizes noted are nominal.

Variation, Usage & Technical Information

Variation

Zellige tiles are made entirely by hand in Morocco and each tile will be different from the next. Please expect the following characteristics which are inherent in authentic Zellige tile from Morocco.

- Chips off the surface of the glaze exposing the clay beneath
- Imperfections on the tile face
- Dips in the surface of the tile
- Uneven edging of the tile
- Wide variation in color/shade between tile pieces
- Glaze pooling in areas of a tile
- Lime pops that expose the substrate of the tile
- Thickness variation from piece to piece

Variation between samples and tiles received is possible, as handmade techniques of glazing make shade and color variation an inherent part of the product. Samples received before shipments should be considered indicative of color only. GST will not honor any claims made for these characteristics listed above if claimed as defects.

Zel Recommended Usage			
Wall Application		Suitable	
Interior Wall/Backsplash		Yes	
Fireplace/Cooktop Surround		Yes	
Shower Wall***		Yes	
Steam Shower		No	
Exterior Wall		Yes*	
Pool, Spa or Water Feature (fully submerged)		No	
Floor Application		Interior	Exterior
Shower		Yes****	No
Steam Shower		No	N/A
Light Residential		Yes**	No
Residential		No	No
Application Notes		Floor Application Definitions	
*Residential Exterior vertical uses in climates that do not experience freeze-thaw conditions. **If used for flooring, expect wear and tear on the tiles, which may include glaze wearing off the edges, or chipping off the surface, as well as cracks, or complete failure of occasional tiles. ***See install instructions for specific method for shower wall installation.		<u>Light Residential</u> - Flooring areas subject to soft-soled footwear or normal footwear traffic without abrasive soil/dirt, such as bathrooms and bedrooms without exterior access and minimal pivot points. <u>Residential</u> - Flooring areas subject to soft-soled or normal footwear traffic that may contain amounts of abrasive soil/dirt, such as living rooms, dining rooms or other rooms with exterior access.	
****Wet Area Applications: Handcrafted Zellige tile may be installed in intermittent wet environments, including residential shower walls and shower floors, when installed as part of a properly designed and constructed tile assembly. Because long-term performance depends on factors beyond the tile itself—including substrate selection, waterproofing, drainage, setting materials, installation methods, movement joint placement, and maintenance—it is the responsibility of the design professional and installer to ensure the complete assembly complies with applicable manufacturer instructions and recognized industry standards. Failure of any component within the system may adversely affect the performance of the finished installation.			
Pools, Spas & Fountains			
Zellige has traditionally been used in pools and fountains in Morocco. However, Zellige tiles do not meet US standards for use in pools, spas or other areas where it will be regularly submerged in water; and we do not recommend Zel for these applications. Use of Zel in pool, spas and fountains is at the discretion of the customer and no claims for damage will be honored for Zel used in these applications, regardless of installation methods.
