VANTAGE

A BALANCE OF FORM AND BEAUTY

*Un equilibrio
di forma e bellezza*

VANTAGE is the perfect combination of technique and beauty, presenting itself as an “industrial technological stone.” A deep, intense ceramic surface, created by overlapping an endless number of amalgamated chips that differ in size and colour.

NEVER THE SAME

A new technology that permits us to arrange the chips of grains in a casually perfect fashion on the surface, both in terms of size mix and colour.

DESIGN WITH THE LIGHT

—

Disegnato con la luce

Un gres porcellanato a tutto spessore, proposto sia nella finitura naturale che in una, di nuova introduzione, denominata 'silk'; un effetto "vissuto" che conferisce al prodotto una superficie opaca, quasi consumata dal tempo ed estremamente piacevole al tatto.

A full-body porcelain stoneware, offered both with natural finishing and a newly introduced version known as 'silk'; a "lived-in" effect that gives the product an opaque surface, almost worn by time and extremely pleasant to touch.
